

Can I View LCM Channels While my ROV is Flying?

Published on Greensea Knowledge Base (<http://localhost:8888/kb2017>)

Can I View LCM Channels While my ROV is Flying?

Yes, you can. LCM has a great tool called LCM Spy. To run LCM Spy, open a command prompt and type:

```
lcm-spy
```

That is it. A GUI window will open and LCM channels will be displayed in real time.
